

To: Christie Lake Residents

As mentioned in the Spring 2011 Newsletter, Tay Valley Township will develop a “Strategic Plan” for the Township. The Strategic Plan is to be completed by Spring 2012 and will be incorporated into the review and revision of the Township’s Official Plan which is to be completed in 2013. The attached Press Release announces “an extensive public engagement project to set a community vision for the next 25 years and beyond”. Four public meetings are scheduled over the course of the summer. Public input and participation is encouraged.

Despite the wording in the attached invitation (see link below), the Reeve has confirmed that public attendance is NOT restricted to one meeting. The public may attend any or all meetings. However, the meetings will have a similar format and purpose and will likely cover the same ground.

The meetings afford an opportunity for Christie Lake residents to express their views on issues such as levels of service, taxation and regulation. CLA encourages your participation, by attendance at one or more of the meetings, by written submission (see Press Release for details, link below), or both.
